MANAGEMENT DISCUSSION AND ANALYSIS

Industry Overview

The Capital market industry has revived and given an overwhelming positive response to the changed political conditions and the new Government. Further to this recovery has helped in improving economic fundamental and sustained policy support. Risk appetite has returned, Equity market has improved and capital market is reviving.

Overall Review

The demand situation in both the Indian Market as well as in the Global Market has been uninspiring. In India, despite impressive GDP growth, consumer sentiments have been quite subdued. The reasons being lackluster overall industrial growth in India and lack of significant fresh investments despite several reforms by the action oriented Government. Given the enlightened and timely initiative by a decisive Government in addressing reforms the industry has been seeking for decades, there will definitely be an improvement in the competitiveness of the industry.

Industry Structure and Development

The global economic conditions remained subdued during the previous year. Even in India there were high inflation, higher interest rate and uncertain market. However the new Government at Centre is doing reasonably well to bring back the economy back on path of progress. The fruits of steps taken by the Government will be shown in the coming year. The introduction of GST will transform the market place in India. The Capital Market is also showing sign of recovery and already there are talks of it breaking all previous highs.

Opportunities and Threats

Focus on reforms will provide opportunities for sustainable growth of Indian economy leading to investment/capital requirement. Focus on financial inclusion will lead to wider participation from all levels of investors. Regulatory reforms aiding greater participation by all classes of investors. However still there are threats from increased competition from local and global players operating in India. Also lack of expertise in fund based and non-fund based activities poses a threat. Continuous downward pressure on the fees, commissions and brokerages caused by heightened competition and willingness of most players to deliver services at very low fees is also perceived as threat for the industry.

Your Company has only one reporting segment. The revenue for the year was Rs. 87.05 lakh and the profit after tax was Rs. 11.08 lakh.

Outlook

The markets presently are subdued and how sooner it will revive is not easy to predict. However, with the industry's increasing preparedness, the evolving opportunities can be better harvested.

Risk and Concern

In recent months inflation has shown an upward trend, which could pose a risk, should it not be tamed quickly. The Government should continue its initiative of Ease of Doing Business. During the year your Company under its well planned and defined risk management policy gave attention to all the risk areas. The Board of Directors is apprised of the development in risk management in periodical meetings where the quarterly results are approved.
